INTRODUCING THE IV5F-3

Molten products have always set a precedent for innovation. Now, Molten is excited to introduce the newest addition to its elite competition volleyball line, the IV5F-3. By combining the revolutionary Flight Stability Technology of the popular FLISTATEC with the classic elements of Molten's bestselling Super Touch, this ball is designed to give players the best of both worlds. The IV5F-3's textured microfiber cover enhances ball control, while its cotton wrapped construction maintains a soft feel on contact. Tradition meets innovation with the IV5F-3, transforming the way the game is played.

Super Touch IT'S OFFICIAL.

As the official ball of USA Volleyball and the NCAA Women's Volleyball Championships, Molten's renowned Super Touch has set a precedent for top quality and performance among the greater volleyball community. Designed with elite athletes in mind, Molten's Super Touch volleyballs feature a premium Japanese leather cover and cotton wrapped construction that delivers exceptional performance. Built for maximum durability, the Super Touch will consistently withstand the daily demands of elite competition.

**Please note: Molten's genuine leather volleyballs require a break-in period of consistent play before developing a softer feel for optimum play.*

BEACH

ELITE BEACH VOLLEYBALL

• *40% Less Water Absorption**

Proven to absorb 40% less water* to maintain a more consistent weight in all weather conditions

• *Improved Grip and Durability**

Wet or dry, new padding technology and sturdier cover materials maximizes grip during play

You can expect exceptional performance from Molten's FIVB Approved V5B5000 beach volleyball. The polyurethane cover construction offers superior grip and durability while absorbing less water—ensuring a more consistent performance, regardless of the conditions.

*Absorbs 40% less water than BV-5000 model during standard lab testing.

BG SERIES

NEW TOUCH, IMPROVED PLAYABILITY

Molten introduces the new BG-Series, as the official basketball of FIBA. As one of the top basketball brands worldwide, Molten continues to create superior quality basketballs with the latest innovative technology.

The new surface texture offers the ideal grip that improves ball control when in contact with sweat or moisture. The sleek design of the BG-Series allows for optimum performance, ultimately enhancing the way the game is played.

* Latex bladders lose air pressure over time as they are made out of natural materials.
Per FIFA standards, allowable loss of air after three days is 25%

ACENTEC® SOCCER BALL TECHNOLOGY

ACENTEC Accuracy Enhanced Technology® from our cutting-edge production line provides an accurate trajectory, outstanding durability, and soft touch to meet all the demands of a top-quality soccer ball.

At Molten, we carry out strict quality controls at each stage of the manufacturing process. A ball needs to pass every one of these inspections before we adorn it with the Molten logo, a symbol of uncompromising quality.

We've replaced traditional hand-sewing with a cross-fusion bonding technique for a smooth, seamless surface and a quicker, more responsive ball. As a result, the ball goes where you want it to go, with minimum absorbency and maximum abrasion resistance. The multi-layer architecture drastically enhances ball roundness, shape retention and durability. The result is a consistent touch on every contact, which delivers unparalleled precision with every shot and pass.
